

Afraid of My Love

What good does it do?
If we can't be together,
It's love that impels me,
To follow you,
My heart caught on fire,
From the depth of my soul.

You're afraid of my love,
Don't be afraid of my love,
You're afraid of my love.

I stumble in my dreams,
A future without you,
Asking over and over,
For something more,
Mothlike round your flame,
I'm just playing this game.

You're afraid of my love,
Don't be afraid of my love,
You're afraid of my love.

The longer the secret,
The stronger the flame,
I know you now,
Don't know myself,
You're afraid that my love,
Outshone the rest.

You're afraid of my love,
Don't be afraid of my love,
You're afraid of my love.
